

Hybridbox Plc. information

Hybridbox Plc. informs its shareholders that the 100% owned subsidiary of Hybridbox Plc., HomeSys Media Ltd. and I-QRS International Ltd. (seat: Budapest, 1047 Budapest, Attila u. 130./A) signed a contract to jointly market a world wide unique solution on the telemedicine market. HomeSys Media Ltd. integrates Chest Belt - telemedicine solution developed by I-QRS - into its hybrid television platform.

Due to this contract HomeSys Media Platform will be the first and unique hybrid TV provider which collects life signs (eg: ECG, blood-pressure, pulse, physical performance) and visualizes those medical data on the TV screen and also, to transfer these data through HomeSys Media Platform towards health care and fitness providers.

Having signed this contract, the Parties created all conditions of the joint international market launch.

Budapest, May 10, 2011
